

**UNIVERSIDADE FEDERAL DE SANTA CATARINA
CENTRO DE CIÊNCIAS FÍSICAS E MATEMÁTICAS
PÓS-GRADUAÇÃO EM MATEMÁTICA PURA E APLICADA**

MTM510033 Partial Differential Equations

Pre-requisite: MTM510012 Distribution Theory and Sobolev spaces

Weekly lesson hours: 06h

Discipline syllabus: Second order linear elliptic PDE's: existence, uniqueness and regularity for weak and strong solutions; Harnack's inequality; principles of maximum; L^p estimates. Second-order quasi-linear elliptic PDE's: topological fixed point method; variational methods; mountain pass theorem.
